+ **Hilarious Comics** *with Alex Dahm*

+ **Face Painting!**

I AM EVANSTON MADE Collaborative Sculpture

You are invited to contribute to an evolving art piece inspired and created by our community!

This piece began at Gather, a community art studio and creativity focused playspace in downtown Evanston. Angela Lyonsmith ATR-BC, LCPC, a fiber artist and art therapist, has helped bring this creation to life as a symbol of our diverse community and tangible image of our interconnection and responsibility to each other. The simple process of wrapping can be accessible for makers of all ages and while each individual piece is small as a collective they create a dynamic, evolving structure.
